

PRODUCT OVERVIEW

CYBERSHARK™

Fully Managed Security & Compliance

Reducing risk and liability around cyber attacks.

YOUR BUSINESS IS NOT SAFE FROM CYBER ATTACKS!

60% of all businesses with less than 200 employees face bankruptcy within 6 months of a data breach. **Why?** Because the average cost of a cyber security breach is **\$3.82 Million dollars!**

Why so expensive? Loss of customers, loss of vendors, regulatory requirements to repair, fines and loss of reputation. It's not the breach that causes bankruptcy, but the cascading consequences of the breach that ultimately force businesses to close their doors. If you are part of the healthcare industry, you must also meet HIPAA standards for data protection. In retail, you must adhere to the credit card industry standard of PCI. No matter your industry, you are required as a business to protect the data of your customers and partners.

Protecting your customers' and partners' data assets from cyber attacks requires a sophisticated combination of Technology, People and Processes known as a SOC (Security Operations Center). A SOC provides cutting-edge technology, Certified Cyber Security Professionals, and 7x24 monitoring to detect, inspect and respond to each and every cyber threat. Mid-sized organizations simply do not have the money nor the resources to build or purchase a SOC to combat the existential threat to their business that cyber criminals represent... Until now!

CYBERSHARK SOC-AS-A-SERVICE

CYBERShark gives **any business of any size** an affordable SOCaaS solution with the Technology, People and Processes **EVERY** organization needs to be secure and compliant. CYBERShark SOCaaS dramatically reduces your chances of suffering a severe breach while at the same time meeting your regulatory and audit reporting requirements.

SECURITY MADE EASY

24x7 MANAGED NETWORK SECURITY

Enjoy 24x7 managed security for your entire network using trained experts & cutting-edge technology.

REGULATORY COMPLIANCE

Solve your compliance & audit problems for HIPAA, PCI and other burdensome regulations.

COMPREHENSIVE FORENSICS

Conduct detailed forensic cyber investigations to help with breach remediation.

SECURE YOUR BUSINESS

Lower the cost of cyber insurance and minimize the chance of an attack while also limiting the damage of any breach.

CYBERSHARK™

powered by **BLACKSTRATUS™**

KEY FEATURES

Count on our multi-layer defense and detection strategy to detect, mitigate and respond to advanced threats:

- ✓ Advanced correlation
- ✓ Real-time alerts
- ✓ Malicious activity remediation
- ✓ Integrated incident management workflow
- ✓ Audit-ready compliance reports
- ✓ Compatible with over 1,000 network devices, operating systems, servers & other appliances
- ✓ Low monthly cost
- ✓ No long-term commitment or restrictive contracts

WHY TRUST BLACKSTRATUS?

- Provides security protection to Governments & Fortune 1000 companies worldwide
- Owned, patented IP utilized by security partners globally
- 20+ years hosting experience, securing a global footprint in more than 120 countries
- Over 1 million devices managed

ENTERPRISE-CLASS SECURITY & COMPLIANCE ON DAY ONE

On day one you will receive a robust security and compliance platform that will keep your data and business safe. We don't just respond to security events, but continuously correlate your system data looking for increasing levels of risk based on user activity, firewall and malware data as well as threat intelligence feeds updated hourly to proactively stop breaches before they can occur.

We provide 24/7 monitoring performed by security experts at the Security Operation Center (SOC) to ensure your business is never vulnerable to attacks. We actively monitor thousands of bad websites, email scams and ransomware to ensure your employees are protected, too. We also include our Watchlist and Proofpoint commercial intelligence for highly accurate identification of known threats.

THE ONLY ROBUST SECURITY & COMPLIANCE SOLUTION THAT WILL:

- ✓ Protect your data and your business
- ✓ Minimize the risk of a breach
- ✓ Quickly respond to potential cyber threats
- ✓ Achieve compliance & avoid the costs of a failed audit
- ✓ Reduce costs and time to repair
- ✓ Dramatically lower your security costs

FREE 30-DAY TRIAL WITH CYBER RISK ASSESSMENT & COMPLIANCE REPORTS

- CYBERSHARK will on-board up to 20 of your most crucial network devices
- CYBERSHARK will monitor and generate security alerts & compliance reporting during the trial period
- At the end of the trial, CYBERSHARK will present a detailed results report & will outline your network's vulnerabilities and potential liabilities

CYBERSHARK™

powered by BLACKSTRATUS™

SECURITY MADE EASY

- ✓ Early detection, expert insight and quick response
- ✓ Real-time situational awareness to anticipate and rapidly respond to cyber threats
- ✓ Enterprise-class solution at a low monthly cost

KEY INDUSTRY STATS

- **\$600 Billion** estimated global cost of cyber attacks annually ¹
- On average, it takes companies **191 Days** to discover a breach ²
- **76%** of web attacks in 2017 were carried out for financial gain ²
- **50%** of mid-sized businesses with 1000 employees or less were breached in the last 12 months ³
